

SUPERPOSITIVITY AFFIRMATION

Every Superpositivity practitioner should say this affirmation at least once every morning upon waking up and at least once just before going to sleep, and as many times throughout the day as one remembers:

Yes i am superpositive forevermore and i am giving superpositivity to the world forevermore, Yes Thank You Universe.

Through the affirmation, one pledges affirmatively to the Universe that one has the energy of superpositivity and one has created that energy thanks to one's eternal source, the Universe. And one also pledge to give one's superpositivity to the whole world. The Superpositivity Affirmation will reinforce the resolve of superpositivity within a person, and will ensure that one practises superpositivity naturally, freely and incrementally.
