

SUPERPOSITIVITY PRINCIPLES

The Essence of Superpositivity

Superpositivity Foundation observes ten beautiful principles, known as Superpositivity Principles. These principles sum up the essence of Superpositivity.

1) Superpositivity is completely spiritual, secular, universal and non political.

2) Superpositivity is completely open to everyone throughout the world without any discrimination whatsoever.

3) Superpositivity is completely independent of any idol, photo, scripture, ritual, ceremony, inscription, human guru, dogma, renunciation, attire, places of worship or any other limitation.

4) Superpositivity has only one guru, one source: the Universe.

5) Superpositivity is completely independent of commercial or religious affiliation with any organisation.

6) Superpositivity is completely beyond criticism of any individual, group or organisation whatsoever. At all times, it respects all faiths, religions and ideologies.

7) Superpositivity is completely focused on giving, without any expectation of fame, praise or return in any form whatsoever.

8) Superpositivity is beyond enlisting any members or followers. It believes that any person who is positive is automatically a part of the movement of Superpositivity.

9) The supreme objective of Superpositivity is to activate infinite positive energy within every individual for the collective benefit of the Universe.

10) Superpositivity is committed to equally accept every situation and experience, eternally focused on the Superpositivity Chant: Yes Thank You Universe.
